

# Smart Wireless SOLUTIONS

## SmartSwitch™ Remote Pivot Control

**CONTROL PIVOT FUNCTIONS FROM YOUR TRUCK WITH THE PRESS OF A BUTTON.**  
*Start and stop your pivot, change direction, speed, or other options.*

### PUSH BUTTON SIMPLICITY

Control your pivot from your pickup truck without driving to the center of the field. With just the press of a button, you can start or stop your pivot, change direction, turn an injector pump on or off, even speed up or slow down the machine. The receiver has 4 relay outputs so you choose what you want to control with the wireless handheld.

**Save time. Save wear and tear on your vehicles. The Remote Pivot Controller is profitable from the start.**

### ISAACS SPREAD SPECTRUM RELIABILITY

Isaacs SmartSwitch™ systems utilize 900MHz, frequency hopping, spread spectrum digital radio technology to reliably transmit switch openings and closures from remote locations.

The Isaacs spread spectrum transmitter sends each actuation signal multiple times across a range of frequencies. With our proprietary communications protocol, data encoding, and unique digital addressing, Isaacs radios are virtually interference immune.

### ISAACS 2610 SYSTEM COMPONENTS

1 each	4-Button Handheld SmartSwitch™ Transmitter
1 each	4-Output SmartSwitch™ Receiver

### No FCC LICENSE REQUIRED

Optimum radio performance (up to 2000 ft range) requires line of sight between transmitter and receiver with respect to ground or foliage. Install the Isaacs SmartRepeater™ in your truck to extend the range up to five miles.

### CONVENIENT AND EASY TO INSTALL

Handheld transmitters are compact (1.7 x 1.1 x 3.1 inches) and battery powered with a long-life lithium battery. SmartSwitch™ receivers are conveniently packaged in a weatherproof enclosure with integrated internal antennas for quick and easy installation.
